Description:

Abstract:

Generalized spatial representation of lands enrolled by landowners in the Forest Crop Law program.

Purpose:

To map general locations of lands listed in the Forest Tax Account Section's ORACLE database for Forest Crop Law.

Supplemental_Information:

For more information on the Forest Crop Law program, refer to the following website: [<http://dnr.wi.gov/org/land/forestry/ftax/forcrop.htm>](http://dnr.wi.gov/org/land/forestry/ftax/forcrop.htm)

Use_Constraints:

An associated dBASE file, FCLFEB05.dbf, is distributed for use with this shapefile. It will be essential to utilize this table for any in-depth use of the Forest Crop Law GIS layer. There is a one-to-many relationship between the polygon and the tabular data behind FCL enrollments. This means that for every unique DTRSQQ in the GIS polygons, there may be multiple records in the data file that correspond to that DTRSQQ.

This table does include those records for any Government and Fractional lots, which were not included in the GIS layer. Therefore, this table can also be used independently of GIS, to gather additional information.

Process_Step:

Process_Description:

A PLSS quarter-quarter section indicator (from Tax Law ORACLE database) was used to select quarter-quarter section polygons from the PLSS grid. This process results in polygons of 40 acres, minimum. However, the actual size of the enrolled property may be as small as 10 acres.
